Frozen Stallion Semen Shipping Fees and Terms:

The Mare Owner or other financially responsible party must contact Dr. Ley in advance of shipment to discuss the terms below, the timeliness of the semen shipment, and to provide a valid credit card number for payment of associated fees and deposits listed below. If contact is made several business days in advance of the desired date of shipment it will be possible for Dr. Ley to provide a more accurate estimate of all fees.

The **Rental Fee** includes rental of a fully charged liquid nitrogen vapor shipper (aka, dry shipper) for 5 business days

\$250.00

Semen **Handling and Packaging Fee** for shipment preparation.

\$75.00

Container **Deposit Fee** (this will be applied to the mare owner's credit card, only in the event that the container is lost, stolen, or damaged etc., and shipping container insurance either did not cover or was not applicable)

\$1500.00

Container **Late Fee** will be applied if the dry / vapor shipping container is not returned to Dr. Ley within 7 business days of its departure from his place of business. Charges will accrue on the 8th business day after the container leaves Dr. Ley's place of business and will continue on a **daily basis** until it arrives at/is returned to his business location.

\$100.00/business day

Fed Ex Shipping is separate and will vary due to the 'ship to' location. It is usually not necessary to send by Priority /Overnight shipping, 2nd Day shipping is less costly and in most situations is timely enough. Related container and semen insurance will also be applied here, the minimum amount of insurance will be \$1500.00 to recover replacement costs of the shipping container only, not its contents! If you desire content insurance please discuss this in advance of your shipping arrangements. Return shipping fees of the container are also the mare owner's responsibility. These fees will be paid by the mare owner's credit card or FedEx account.

(Varies)

The mare owner can make their own shipping arrangements and have their vapor (dry) shipper sent to Dr. Ley for semen handling and packaging and return shipping.

(Your shipping costs + \$75.00)
